

April 25, 2024

Dear Renfrew Property Owner, Stakeholder, Resident:

Construction for the Argyle/Lochiel reconstruction project, which commenced in 2023, is currently underway and is slated to progress in the forthcoming weeks. Bonnechere Excavating Inc. has already begun groundwork on Argyle Street in preparation for the construction phase. This project aims to enhance the safety, functionality, and aesthetics of our community's road network.

Project Description

The project includes a full road reconstruction including sanitary sewer, storm sewer, and watermain replacements, as well as curb and gutter repair, sidewalk upgrades, and asphalt replacement. The project extents include Argyle Street from O’Gorman Avenue to Opeongo Road, as well as Hall Avenue from Plaunt Street South to Barr Street.

Garbage and Recycling

Curbside garbage and recycling collection will remain the same as usual, but we ask that businesses and residents mark their business name and address on their cans or containers. BEI will communicate any special needs with respect to garbage and recycling during the construction.

Traffic and Accessibility

Portions of Argyle Street will be temporarily closed to through traffic during construction. Detour routes will be clearly marked, and traffic control personnel will be on-site to assist with traffic management.

The Town and the contractor will take precautions to minimize interruptions, but as you can appreciate, there will be some inconvenience during the construction. If you have any concerns related to the project or require special accessibility accommodations, please let us know by contacting the project manager noted below.

Future Notices

The Town of Renfrew will keep you informed of any significant updates or changes throughout the process. Future notices will be provided through the Town of Renfrew website and social media accounts.

The Town of Renfrew would like to thank you in advance for your patience and cooperation with the upcoming construction project.
